

```
1  #include <stdio.h>
2  int main() {
3      int side;
4      printf("Enter side: ");
5      scanf("%d", &side);
6      printf("Area = %d\n", side * side);
7      printf("Perimeter = %d\n", 4 * side);
8      return 0;
9  }
10
```

Enter side: 555

Area = 308025

Perimeter = 2220

Process returned 0 (0x0) execution time : 2.635 s
